TWENTY-SIX PERCENT OF CONSUMERS POLLED for The Packer's Fresh Trends 2023 survey indicated they had purchased asparagus in the previous 12 months. That compares with $28 \%$ in the Fresh Trends 2022 and 27\% in Fresh Trends 2021.

Fresh asparagus supply comes mainly from outside the U.S. border, with U.S. imports accounting for more than $90 \%$ of fresh asparagus supply in 2021.
Fueled by rising imports, retail per capita availability for fresh asparagus has grown in recent years, from 1.26 pounds in 2011 to 1.60 pounds in 2019.
However, USDA trade statistics for 2022 show the value of asparagus imports totaled $\$ 690$ million, down $10 \%$ from 2021.
The average fob price for asparagus rose in 2022, the USDA reports, from $\$ 22.38$ per carton in 2021 to $\$ 25.31$ per carton in 2022.
Higher-income consumers were more frequent buyers of fresh asparagus, Fresh Trends 2023 reveals. Thirty-one percent of consumers making more than $\$ 100,000$ a year said they purchased fresh asparagus, compared with just $20 \%$ of those making under $\$ 25,000$ annually. (3)
