

Market Update 3/26/2018: "Did You Know?"

Some promising produce updates about juicy watermelon and sweet corn from Van Groningen & Sons, Inc!

Watermelon

- Photo details of the measures Van Groningen & Sons are taking to protect watermelon plants with plastic caps
- As you can see, the vines are strong and healthy so it looks as though these counter measures were a success in protecting our desert watermelons
- Watermelons from Mexico (Guaymas area) should be increasing the week of April 2

Corn

- **Photos of our sweet corn fields in the Imperial Valley - they are progressing very nicely!**
- **We anticipate starting both White & Bicolor the week of April 16**
